

# PowerJak™

## PPJ4500 Heavy Duty, Fully Powered 4,500 Pound Capacity Pallet Trucks

PowerJak™ PPJ4500 Electric Pallet Trucks feature powered lift and powered drive for effortless transport of pallet loads. They are more convenient and easier to use than hand pallet trucks and far more economical than ride on devices.

### PPJ4500 Features:

- Ergonomic handle with redundant controls for left- or right-hand use
- Variable speed forward and reverse with Turtle Speed
- Automatic brake engages to halt travel if handle is released
- Heavy-duty reinforced steel forks have 24" load center
- 24 Volt drive and lift motors provide ample power
- Dual, articulating casters roll easily on uneven surfaces
- Battery indicator provides charge status at a glance
- Hour meter simplifies maintenance scheduling

Ergonomic handle with left/right hand controls and "belly bump" switch

Key switch prevents unauthorized use; Emergency e-stop halts operation

Turtle-speed button reduces drive speed by 50% for precise positioning

Articulating front casters provide smooth travel on uneven surfaces

Model	Capacity	Low Height	Lift Height	Fork OD	Fork Length	Load Center	Turning Radius	Max Travel Speed	Battery Power	Battery Charger
